4) At run time it is necessary only to define the value of the INDEXED tag 0,1,2

- By writing the INDEXED TAG the value will be written to the target Tag1,2,3...
- Writing the Tag1,2,3... we will be able to read the value in the INDEXED TAG depending on the INDEX set

<b>Index</b>	0	Tag1	17	index0
<b>Indexed tag</b>	17	Tag2	0	index1
		Tag3	0	index2

<b>Index</b>	1	Tag1	17	index0
<b>Indexed tag</b>	34	Tag2	34	index1
		Tag3	0	index2

<b>Index</b>	2	Tag1	17	index0
<b>Indexed tag</b>	125	Tag2	34	index1
		Tag3	125	index2
